## PURCHASE AND SALE AGREEMENT

This Purchase and Sale Agreement ("Agreement") is by and between the purchaser identified in the signature block below ("Customer") and Hillbank Motor Corporation, Inc. ("Hillbank"). By signing below, the Customer and Hillbank agree that Customer shall purchase from Hillbank and Hillbank shall sell to Customer the component roller ("Roller") described below, upon the following terms and conditions below:

### 1. COMPONENT ROLLER

- a. The term "component roller" or "Roller" means a vintage sport replicar with chassis, body, wheels and tires
- b. The Roller is identified as:

Year: New Model #: CSX6000 427S/C Serial#: CSX6147

### 2. DELIVERY DATE & PLACE

There is no guaranteed delivery date of the Roller; however, the anticipated delivery date to Customer, which shall be at Hillbank's premises at the Hillbank address set out below, is upon Payment in Full

### 3. PRICE AND PAYMENT

- a. Customer shall pay Hillbank [REDACTED] plus all applicable taxes for the Roller ("Contract Price") by wire transfer, personal check, or bank certified check.
- b. Customer shall pay the Contract Price to Hillbank as follows:
  - i. Down payment of \$5,000.00 ("Down Payment") received on 03/10/2020.
  - ii. Balance due of [REDACTED] plus all applicable taxes due prior to delivery of vehicle or by 03/24/2020.
- c. **Note:** Customer shall bear responsibility for installation of engine and drive train for Roller at his/her cost & expense

### 4. OPTIONS AND ACCESSORIES

Customer may select and purchase certain options and accessories ("Options") from Hillbank which are *not* included in Contract Price. If Customer wants to purchase such Options, he/she must complete and sign Addendum "A" to this Agreement, which shall set out those Options selected by Customer, as well as their price. Any Addendum shall be incorporated and made part of the Agreement, and shall be subject to its terms and conditions.

### 5. NOTICE

Any notice under this Agreement shall be in writing and delivered to a party by hand, US mail or registered to the following addresses, or such other address as either party may designate from time to time:

**Customer:**

**Hillbank**

Hillbank Motor Corporation, Inc.

1 Whatney

Irvine, CA 92618

Attention: \_\_\_\_\_

Attention: \_\_\_\_\_

**NOTE: THE PURCHASE AND SALE OF ROLLERS AND OPTIONS UNDER THIS AGREEMENT SHALL BE SUBJECT TO THE TERMS AND CONDITIONS (AND DEFINITIONS) ABOVE, AS WELL AS ON 2<sup>ND</sup> PAGE OF THIS DOCUMENT**

**CUSTOMER:**

**HILLBANK MOTOR CORPORATION, INC.**

Sign: \_\_\_\_\_

Date: \_\_\_\_\_

## 6. DELIVERY

- a. Customer acknowledges the delivery date for the Roller is an estimated date, not a guaranteed date, and that such date shall in no way be construed as a "time is of the essence" date. Customer agrees that if the Roller is not delivered to Customer on or by the estimated delivery date, this shall not be considered a material breach of this Agreement by Hillbank.
- b. Hillbank shall make a good faith effort to deliver the Roller to Customer on or by the delivery date; however, Hillbank shall not be liable for any damages if the Roller is not delivered on that date.
- c. In the event delivery becomes impossible or is delayed for more than one hundred and eighty (180) days from the estimated delivery date, Hillbank will, upon receipt of Customer's written request, provide Customer with a full refund of any monies paid to Hillbank by Customer for the Roller.

## 7. DEFAULT ON PAYMENT

- a. In the event Customer defaults, delays, or refuses to perform as set out on the first page of this Agreement, including paragraph 3, Hillbank will give Customer 10-business days written notice to cure; but if Customer fails to cure during such period, Hillbank shall have the right to immediately terminate this Agreement.
- b. Since it would be extremely difficult and impractical to assess actual damages suffered by Hillbank if Customer fails to pay for the Roller as set out in Paragraph 3 and fails to cure as set out herein, Customer agrees Hillbank shall be entitled to retain the Down Payment as liquidated damages.

## 8. OWNERS MANUAL WARRANTY

- a. Manufacturer of the Roller ("Manufacturer") and Hillbank agree to provide Customer with a warranty which shall be provided by Hillbank to Customer on execution of this Agreement, and incorporated herein and made hereof.
- b. Manufacturer and Hillbank will provide Customer with a 1-year warranty of merchantability and fitness with respect to the Roller's chassis, fit and finish, as well as other standard features (except for electronic and wiring components) ("Warranty").

## 9. WARRANTY DISCLAIMER

- a. Except as set out in paragraph 8 above, Hillbank shall not provide Customer with any warranties, and hereby expressly disclaims any warranty of merchantability or fitness for any particular purpose. Hillbank makes no representation or warranty regarding any engine or drive train, or the installation thereof, in any Roller, or the person or entity or company selected by Customer to install such engine or drive train into the Roller.
- b. Except as set out in this paragraph, neither the Warranty nor the Owner's Manual shall be construed as an admission of fault or acceptance of liability by Hillbank in the event any mechanical or other defect results in any injury to property or person.

## 10. USE OF ROLLER

- a. While Manufacturer has exercised due care in manufacturing the Roller, neither Hillbank nor Manufacturer has any control over Customer's use or operation thereof; Customer assumes all responsibility and risk regarding Roller's use and operation.
- b. Customer acknowledges Hillbank has recommended he/she attend a **professional driving school** before operating the Roller.

## 11. INSTALLATION

- a. Customer acknowledges that the Roller shall not include an engine or a drive train, unless otherwise specifically stated on the first page of this Agreement in paragraph 1.
- b. The choice of engine and drive train for any Roller, as well as the selection of the person or entity that will install the engine and/or drive train ("Installer") in the Roller is **solely Customer's**

**responsibility.** Customer assumes full responsibility for assembly of uncompleted components on the Roller, installation of the engine and drive train and/or Customer's selection of Installer or installation of engine or drive train.

- c. Customer shall indemnify Hillbank against any claims, causes of action, injuries, damages, losses or suits (including costs and attorneys' fees incurred) by the Installer for or relating in any way to installation of the engine and/or drive train.

## 12. ROADWORTHINESS, TITLE AND LICENCING

- a. Customer shall assume full responsibility to ensure the Roller is "roadworthy" as defined by any applicable law, and shall comply fully with any applicable law.
- b. Customer shall be responsible for obtaining any title or license that may be required, and for registering the Roller in any state or country where the Roller may be found or where Customer resides, and desires to operate and/or use the Roller, as well as to obtain any and all necessary permits. Customer shall be responsible for any taxes, fees or costs to ensure the Roller is roadworthy, titled and licensed for operation.

## 13. GENERAL TERMS

- a. This Agreement (and its terms and conditions) shall be binding on the parties, their successors, legal representatives, and assigns, and may only be modified in a writing signed by both parties.
- b. This Agreement shall be governed by California law, without regard to its choice of law principles. Any dispute arising out of or relating in any way to this Agreement shall be brought in the federal or state courts in Orange County, California and the parties hereby consent and stipulate to jurisdiction and venue in such courts. The prevailing party shall be entitled to recover their reasonable attorney's fees and costs.
- c. No waiver of full performance by either party shall be construed or operate as a waiver of any subsequent default or breach of any terms, covenants or conditions of this Agreement.
- d. This Agreement (both pages and any signed Addendum) constitutes the entire agreement between Customer and Hillbank, and supersedes all prior oral or written representations or agreements that may have been made by either party.
- e. If any provision of this Agreement is held to be illegal, invalid or unenforceable, such provision shall not affect the remaining provisions in any way, which remaining provisions shall remain in full force and effect.
- f. If this Agreement conflicts in any way with the Owner's Manual, then the provisions of this Agreement shall prevail, except the provisions in the Owner's Manual regarding the Warranty.

#### **Notes:**

This invoice is for complete installation of Shelby CSX 6150 Cobra. Client purchased engine directly from Shelby for vehicle and had engine shipped to Airpark Motorsports. Client made initial deposit for parts to be purchased for final assembly of vehicle on 4/13/20. Any additions that client has made such as additional engine upgrades, interior upgrades, chassis modifications, etc. have been added to this invoice. Freight for larger parts and tax for all parts has also been added to this invoice. Payment for all additional items and labor is due upon vehicle pick up.

Engine and transmission where installed into vehicle along with all other needed components to manufacturer specification. All plumbing for oil cooler, engine cooling system and clutch where completed. Needed wiring for MSD 6AL system was completed and MSD Unit rev limiter has been set at 6200rpm. A coolant temperature trigger switch was installed for electric cooling fans, This will trigger the fans at 185degrees and shut fans off at 165degrees. Electric fuel pumps in trunk of vehicle have been disconnected and plumbing has been removed, mechanical fuel pump on engine is being used at this time with no return line. This was done due to high failure rate of electric pumps in vehicle and no need for return line on carbureted system. Electric pumps have been left in vehicle if client chooses to use that later. Failure of electric pumps is not covered under warranty if hooked up by client. Oil cooler lines are present, but for aesthetics only. Oil cooler and lines are not routed to the engine, this was done at client's request and is not a normal practice of Airpark Motorsports.

Headers where fit up into vehicle and adjusted into openings for clearance. Side pipes where attached and mounted at proper height. Headers and side pipes where then removed from vehicle. Final welding was done on all eight header tubes, header tubes where welded internally to maintain exterior appearance. Header flanges where then checked with straight edge and ground flat where needed to assure a proper seal at head. Headers and side pipes where sent out for client requested black ceramicoating. Headers and side pipes where received back from coating, then installed on the vehicle for a final time.

Provided rear differential was installed into vehicle along with half shafts and custom-built drive shaft. Rear differential was filled with 80w-90 Gear oil and posi additive.

Fuel tank was removed from vehicle so that provided fuel sending unit could be installed properly. Fuel tank was then reinstalled into vehicle and all wiring to sender was completed.

Engine was filled with Shelby recommended 20w-50 engine oil, Cooling system was filled with standard green coolant and distilled water at a 50/50 ratio. Transmission was filled with manufacture recommended synchromesh manual transmission fluid.

Brake and clutch reservoirs where filled with high temp DOT4 brake/clutch fluid. Brakes where then bled at all four wheels and hydraulic clutch system was bled. Brakes and clutch where then checked for function.

A general inspection of vehicle was done to check for function of all factory installed items. Brake lights, turn signals, head lights, dash lights and gauges, electric cooling fans, etc. All primary fasteners where checked throughout vehicle and re torqued if necessary.

Vehicle was started in a controlled environment, any needed adjustments to timing or carburetor where made and engine was run through initial startup steps specified by manufacturer.

Vehicle was road tested for 3 miles to check for proper function of clutch, brakes and engine. Vehicle okay for alignment.

A four wheel alignment was completed on vehicle along with adjustments in ride height to compliment alignment and prevent tire rub. Client requested that ride height be as low as possible, ride height was set as low as possible to be able to prevent tire rub at rear wheels.

After alignment vehicle was driven 100miles to check for function and inspected several times during the process. Vehicle is okay to release!

Airpark Motorsports has found that these vehicles will need proper maintenance in the first 1,500miles to make for an enjoyable driving experience, these items include but are not limited to Oil and filter change, transmission fluid change, rear differential fluid change, additional alignments, clutch adjustment, additional wheel and tire balancing, suspension adjustments. All these items are changing in the initial millage on vehicle and are highly recommended by Airpark Motorsports.

Vehicle will require an engine oil change at 500miles and a Transmission fluid change at 500miles.

Recommended fluids and filters are as follows. Engine Oil - 20w-50 Driven Racing Oil, Engine Oil Filter - Motorcraft FL1A, Engine Coolant- Standard green ethylene glycol coolant and distilled water at a 50/50 ratio, Transmission fluid- Penzoil or Valvoline synchromesh manual transmission fluid, Brake/Clutch Fluid- High temp DOT4.

Client made deposit of \$8,000 on 4-13-20 this amount is reflected in the discount line at the bottom of the invoice and removed from the total amount. Tax at the amount of \$615.74 has been added to this invoice. The total due at this time is \$12,110.88 (- \$350.00 deposit client lost from shipper we recomended)= 11,760.00 this amount can be found in the total due line below.

Thank you for your order.

I hereby authorize the repair work listed herein, including sublet work, to be done along with necessary materials. You and your employees may operate the described vehicle for the purposes of testing, inspection or delivery at my risk. An express lien is acknowledged on said vehicle to secure the amount of repairs thereto. You will not be held responsible for loss or damage to vehicle or articles left in vehicle in case of fire, theft, accident or any other cause beyond your control. Customer agrees to pay all collection costs and for attorneys fees in the event that default is made in any payment due. If vehicle is returned to customer without repair service being performed, a diagnostic and handling fee (including reassembly) may be charged. I have read and understand the above and acknowledge receipt of an estimate.

## ASE Safety Inspection and Application for Custom Vehicle or Street Rod License Plates

### Instructions/Information

**CUSTOM VEHICLE** is "a vehicle that is at least 25 years old and of a model year after 1948; or manufactured to resemble a vehicle that is at least 25 years old and of a model year after 1948, and that has been altered from the manufacturer's original design or has a body constructed from materials not original to the vehicle." **STREET ROD** is "a vehicle that was manufactured before 1949; or after 1948 to resemble a vehicle manufactured before 1949, and that has been altered from the manufacturer's original design, or has a body constructed from materials not original to the vehicle."

**TO OBTAIN YOUR SPECIALTY PLATE:** The inspection on page 2 must be completed by an Automotive Service Excellence (ASE) Certified Master Technician. Texas title and vehicle registration must be in your name. If the vehicle is leased, attach a copy of the lease agreement. Submit this completed form with all other required documentation to your local county tax assessor-collector's office if you are not applying for title. Submit this completed form with all other required documentation to a Texas Department of Motor Vehicles Regional Service Center if applying for initial title for a newly assembled custom vehicle or street rod. There is no fee for the specialty license plate, but your annual registration and other applicable fees must be paid. Your plate may be personalized for an additional \$40.00 fee (below). When the specialty plate is issued, an additional fee may be collected to establish a single expiration date for both the specialty plate and the vehicle registration. If ordering by mail, contact your county tax assessor-collector's office in 2-3 weeks to verify your plate is ready for issuance. **If the vehicle is sold/transferred, Custom Vehicle and Street Rod license plates are non-transferrable and must be removed.**

**COUNTY TAX ASSESSOR-COLLECTORS:** A replica vehicle must display the REPLICIA brand with the year and make it resembles and will be titled with the make of ASVE. Original vehicles will be titled with the year of manufacture and the established make.

### Vehicle Information

Vehicle Identification Number (or Motor Number, if applicable) <b>CSX 6150</b>		Year <b>1965</b>	Make <b>Shelby</b>	Body Style <b>Roadster</b>	Model <b>Cobra</b>

### Personalize Your Plate

If you would like to personalize your specialty plate, there will be a \$40.00 fee per year in addition to the annual registration and other applicable fees. **Personalization fee will not be refunded once application is submitted.**

- You may list more than one option in case the personalization you have chosen is unavailable. Your selection will not be approved if it has already been issued, is deemed offensive, or conflicts with another license plate pattern.
- Enter your choices in the selection blocks below exactly as you want them to appear on the license plate. The plate may consist of up to six (6) characters. Enter only one letter, number, blank space, dash, period, Texas silhouette (use an \*), heart symbol (use an @), or star (use an &) per box. You do not have to use all the spaces provided.

**International Symbol of Access (ISA)**  counts as two (2) characters and must be located at the beginning of the plate pattern. If you are disabled and applying for personalized specialty plates, the plate may consist of only the ISA symbol plus 3 characters. Use a percent sign (%) to indicate the ISA. Additionally, you must submit a signed Form VTR-214 to show eligibility.

### Applicant Certification- State law makes falsifying information a third degree felony

I, the applicant listed above, certify the vehicle listed above meets the eligibility requirements listed on this form. I certify I have not used the frame or body from a nonrepairable motor vehicle; or the motor, or electrical or mechanical components from a flood-damaged vehicle in construction of the vehicle. I am providing proof of the ASE Certified Master Technician inspection.

# ASE Safety Inspection and Application for Custom Vehicle or Street Rod License Plates

## Safety Inspection Requirements/Inspector Information

This form is **ONLY** for vehicles applying for Custom Vehicle or Street Rod license plates. All other assembled motor vehicles or replicas not applying for one of these two license plates must complete the **ASE Safety Inspection for Assembled Vehicles (Form VTR-64)**.

The vehicle and equipment must be certified by an ASE Certified Master Technician as being structurally stable and safe to operate on public roads. An ASE Certified Master Technician can be found at [www.ASE.com](http://www.ASE.com). The ASE Certified Master Technician must inspect the vehicle, initial by each item inspected and sign the certification on this page.

- Master status is established by passing the Automobile Test Series (A1 through A8).
- A copy of the certifications and expiration dates, available through the inspector's "myASE" account, must be submitted with this inspection. The inspection is not valid if any of the series (A1 through A8) are missing or expired at the time of the inspection. **This form is not valid without the certifications printout.**
- The inspection fee is set by each ASE Certified Master Technician.
- The ASE Certified Master Technician must initial each box, and provide comments as applicable, to certify the presence and/or safety of each item.

The automotive systems and parts listed below must be inspected, as applicable, based on the year model of the replica vehicle. A Custom Vehicle or Street Rod must only comply with state and federal motor vehicle safety laws in effect the year the vehicle was manufactured or resembles. For example, a 1955 replica vehicle must only comply with state and federal motor vehicle safety laws from 1955.

Once the vehicle is approved for Custom Vehicle or Street Rod license plates, the vehicle is exempt from the Texas vehicle safety inspection (and emissions inspection, if applicable). **Carry a copy of this completed application/inspection form in your vehicle.**

## ASE Certified Master Technician Information

ASE Certified Master Technician's First Name <u>Rafael</u>	Middle Name	Last Name <u>Dorja</u>	Suffix (If any)
ASE Certified Master Technician's Certification Number <u>ASE-1311-2687</u>	Certification Expiration Date <u>6/30/2022</u>	Email (Optional)	
Business Name <u>Robertson Automotive</u>	Phone Number <u>903-597-6536</u>

	<input type="checkbox"/> Other

## Technician Certification – State law makes falsifying information a third degree felony

I certify I am an ASE Certified Master Automobile Technician with current, valid credentials at the time of inspection, have inspected the vehicle and equipment listed, and certify it is **structurally stable and meets the necessary conditions to be operated safely** on public roads. I certify that the equipment used in the construction of the vehicle, complies with state and federal motor vehicle safety standards in effect the year the vehicle was manufactured or resembles. The information provided is correct to the best of my knowledge at the time of inspection.

Signature of ASE Master Technician 	Printed Name (Same as Signature) <u>Rafael Dorja</u>	Date of Inspection <u>9/14/20</u>
